

European Aviation Safety Agency

Terms of Approval

**Design Organisation Approval Certificate
EASA.21J.372**

1. Scope of approval

This Design Organisation Approval has been granted for:

- designing in accordance with the applicable type-certification basis and environmental protection requirements minor repairs and minor changes in the following area:
 - Electrical systems
- demonstrating and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2. Categories of products

Large aeroplanes, large and small rotorcraft

3. List of products

[Not applicable]

4. Privileges

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) [Reserved]

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design and repairs as "major" or "minor".
2. to approve minor changes to type design and minor repairs.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA ref. EASA.21J.372".

5. Limitations

[See in 1, above]

The Scope of Work for Electrical Systems is limited to generators and motors.

Date of issue: 18 November 2013
