**Key Applications:**
- High Speed Locomotives
- Diesel Locomotives
- Diesel Multiple Units
- Electrical Multiple Units
- Mass Transit Vehicles
- Civil Vehicles (Track Laying)

Our equipment is fitted in the majority of British locomotives, diesel multiple units and special purpose vehicles and is in service in many other parts of the world.

**Commercial Vehicle: Railway Protection**

**Services Offered**
- Field Technical Services
- Repair & Overhaul
- Spares Distribution & OEM
- Technical Publications
ACE and Kidde Graviner:

ACE (Achieving Competitive Excellence) is the standard operating system for improving and sustaining quality and productivity throughout all of UTC.

The ACE Operating System defines our daily management system and has three major elements.

- **Culture** - Full employee engagement at every level, with a relentless focus on continuous improvement.
- **Tools** – Process improvement and waste elimination tools, Problem solving tools, and Decision making tools aimed at transforming and sustaining business performance.
- **Competency** – The ability to understand the needs of the customer and the business.

Kidde Graviner ACE journey to Gold:

Kidde Graviner is currently an ACE Silver site and plans to progress further onto ACE Gold in 2013.
